**Product description**

Chief 125 copper external spouting bracket is a spouting bracket used in the installation of Chief 125 spouting system.

**Table 1**

| Component                 | Component - Material                  |
|---------------------------|---------------------------------------|
| CG Chief External Bracket | 2.50mm BMT Copper-Hard (Grade C12200) |

**Installation Requirements**

Refer to Chief 125 copper spouting system BPIR:CHICU-SYS:2023.v1 for full system and installation details.

**Scope of use**

Chief 125 copper external spouting bracket is designed to fit Chief 125 spouting.

**Limitations of the use of this building product:**

1. The product cannot be installed onto fascia or cladding with incompatible materials. The product cannot run-off onto incompatible materials. Material Compatibility, Contact and Run off to be adhered to in accordance with E2/AS1 Table 20, 21 & 22.
2. Site locations must be evaluated in areas with high wind &/or salt &/or thermal/industrial atmospheric conditions. These types of locations may require specific engineering design (SED). Designers must consult metal supplier’s information for specific durability requirements (Reference E2/AS1 table 20).

**Maintenance Requirements**

*(Link to Care and Maintenance Document below under “Supporting Documentation”)*

1. Inspection of the product is required every 3 months to check for buildup of residue.
2. Wash the exterior surface of the product at a minimum of every 6 months and immediately after inspection if required.

**Relevant building code clauses.**

| Compliance/Regulation    | Detail   |
|--------------------------|--|
| E2/AS1 External Moisture | Table 20   |
| B2/AS1                   | Table 1: Durability Requirements of Nominated Building Element |

**Continuous Group Limited - Building Product Information – Chief 125 copper external spouting bracket**
**Chief 125 copper external spouting bracket contributes to compliance by –**
***E2/AS1 Table 20: “Material Selection”***

- The component is classified as “Sheltered” and material selection shown in Table 2 of this BPIR meets the requirements of table 20 for exposure Zones B,C, D & E for “Copper” and “uPVC” materials.

***B2/AS1 Table 1: Durability Requirements of Nominated Building Element- requires external gutters to have a durability of 5 Years.***

- This gutter product is provided with a 10 year warranty if the maintenance conditions are met.

**Supporting documentation**

The following additional documentation supports the above statements:
